Forecast for Friday 06 Oct 2023

Weather: Extensively cloudy with persistent and at times heavy rain coupled with strong winds in exposure. Drier throughout in the east, with the best chance of some brighter intervals in a lull in rain around the middle of the day, however heavier rain should return generally into the evening.

Chance of cloud-free hill tops above 600m: Near nil.

Low Cloud and visibility: Persistent cloud bases 400-600m, with bases locally 300m in the west, breaking at times across eastern fells. Visibilities good, but moderate or poor in the rain or drizzle
